

Digital Storytelling with Sway for Education

GENERAL INFORMATICS

Sway makes it fun and easy to create and share interactive class materials, presentations, projects, and more in just minutes!

Photos, videos, audio + more

Teachers and students can transform photos, video, audio, charts & more into a polished, shareable design.

Build great e-portfolios

Say goodbye to stacks of paper! Build digital collections of student work to document learning progress.

Share success with parents!

Parents can view Sways on any device when you send them a link – no additional software or sign-in needed.

Sway is included in all Office 365 Academic Plans!

Ready to see what you and your students can create with Sway? Schedule a meeting with our K-12 Education advisors! Call us at 225.767.7670 or email info@geninf.com
